

## **ICISP Summer in Seville, Spain**

May 31 – July 1, 2017

ICISP and the International College of Seville (ICS) offers an intensive Spanish language program every summer. The ICS Intensive Program is four weeks in duration, providing students with an opportunity to experience and understand Spanish society and its institutions through direct exposure to Spain's history, art and contemporary society. The program provides an excellent introduction for students planning to work in fields requiring a thorough knowledge of Spanish language and culture.

The ICS Intensive Summer program offers Spanish language (3-4 credits) at three levels: Elementary I/II, Intermediate I/II and Advanced I/II. All courses meet four hours daily, Monday through Friday. Students also enroll in a Cultural and Society class that includes experiential learning via outings to local museums, monuments and cultural sites.

**Total Fees = \$3,750 (airfare not included)**

\*Cost includes orientation, instructional and administrative costs abroad, health insurance, and housing/meals for approximately five weeks, including 21 meals per week plus laundry. Field trips include in-city and out-of-city excursions, including trips to Cordoba and Morocco.

NEW: In 2017, ICS is offering an extra-curricular option of professional soccer training. Students train at a professional soccer academy three times per week (1 ½ hour per session.) The optional soccer training requires an additional \$100 fee for the 12 hours of training.

**Deadline to apply, Feb 15 (Late applications accepted if space allows.)**
